

Fire and smoke-resistant doors and screens

E30–E120/EW30–EW60

*Fire resistant doors T30 / F30, smoke proofed doors RS
Primary school, Steingaden, Germany*

FIRE BLOCK **presto**

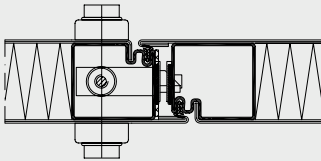

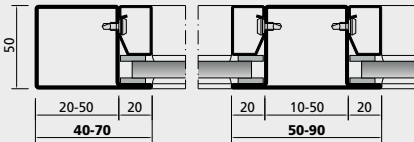

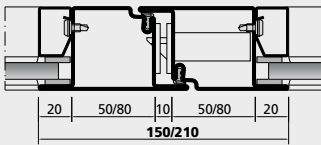

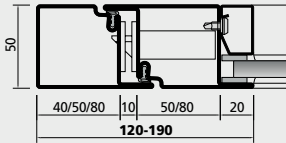

Glazed smoke- and fire resistant doors and screens

Versatile, tested and approved

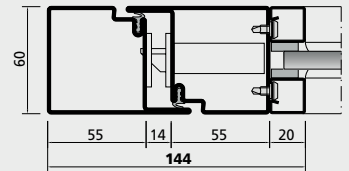

Fireblock presto is the complete profile system with fittings and accessories for flush-fitting single and double-leaved smoke-resistant doors RS (DE) and S₂₀₀ according to EN 1634-3 as well as for fire-resistant doors and screens E30–E120 / EW30–EW60.

System synergy with compatibility: The outward appearance is identical to other Fireblock series, and makes the system flexible and planner-friendly. Because the identical visible section width of the profiles, the same accessories and fittings can be used as for the systems Fireblock fuego light (fire resistant doors) and Fireblock unico (doors with thermal break).
